

TrackMan 4 Simulator – Quick Start Guide

This guide will help you get started with range practice, course play, and fun game options, including kid-friendly activities. You can explore the simulator’s features at your own pace.

*To see all available courses, including the newly added Spyglass Hill, visit the [TrackMan Course Library](#).

1. Initial Setup

- If you would like to keep your data, either sign in or create a free TrackMaan account.
- We’ll introduce you to the simulator features just enough so you can explore comfortably.

2. Range Practice

- Select “Range” mode from the main menu.
- Adjust settings for wind, shot distance, or shot type.
- Try different practice modes:
 - Target Practice – Hit specific distances or zones.
 - Shot Shaping – Practice draws, fades, and trajectory control.
 - Club Comparison – Track how different clubs perform with your swing.

3. Course Play

1. Select “Play Course” from the main menu.
2. Choose your course from your list. Popular options include:
 - Spyglass Hill
 - Pebble Beach
 - St. Andrews

Virtual 3 vs. Other Courses:

Virtual 3 courses are digitally recreated from real-life tracks but optimized for simulator play.

- Other courses may include creative or classic TrackMan designs.
3. Decide on game options:
 - Stroke Play – Traditional scoring.
 - Match Play – Compete hole by hole.
 - Scramble.
 4. Set difficulty levels and weather conditions for realism.

4. Games for all Ages

TrackMan 4 includes fun, kid-friendly games: new one also

- Magic Pond – Hit targets in a whimsical, adventure-style pond.
- Streets of Neon – Navigate a mini-golf course with colorful obstacles.
- Scrapyard – Knock over virtual cars in a junkyard setting.
- Capture the Flag – Hit targets to “capture” flags and score points.
- Bullseye – Test accuracy by hitting targets as precisely as possible.
- Hit It! – Compete for the longest drive using TrackMan metrics.
- Closest to the Pin – Classic challenge: land shots closest to the target.
- Shuffle Golf (NEW) – Like shuffle board but golf.

Tip: Start with one game at a time to keep it simple and fun.

5. Additional Features

- Data Analysis – Includes Swing Analysis, Motion AI and Tracy Instruction to take your swing to the next level!
- Data Feedback – Track speed, launch angle, spin, and more.
- Score Tracking & Leaderboards – Track progress over time.

6. Keep the Fun Going!

Make the most of your TrackMan experience and enjoy even more at Mid Vallee:

- Create Your Own League – Use TrackMan leaderboards to compete with friends or family and track your scores over time.
- Book Mid Vallee for Your Next Gathering – Host a party, team event, or family outing with our simulators for interactive entertainment.
- Play the Course of the Month – Join our monthly tournament courses and compete for prizes!
- Special Offer – Buy 6 hours of simulator time, get 1 hour free.
- Food & Refreshments – Visit our website to see menu options and order for your group.
